Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATE: Comments must be submitted on or before August 24, 1995.

SUPPLEMENTARY INFORMATION:

Office of Prevention, Pesticides and Toxic Substances

Title: Polychlorinated Biphenyls (PCBs)—Notification and Manifesting of PCB Waste Activities and Records of PCB Storage and Disposal. (EPA ICR No. 1446.05; OMB No. 2070-0112). This notice requests an extension of a currently approved collection.

Abstract: Under section 6(e) of the Toxic Substances Control Act (TSCA), generators of PCB waste must prepare manifests when they ship the waste for storage and disposal. The manifests enable EPA to track the chain of custody for a particular PCB waste shipment. Generators must also submit to EPA an Exception Report if, within 45 days, they do not receive a copy of the PCB waste manifest signed by the owner or operator of the PCB commercial storage and disposal facility to which the waste was shipped. They are also required to submit an annual report of unmanifested PCB waste.

All commercial storers, transporters and disposers of PCB waste must notify the EPA of their PCB waste handling activities, and they must obtain an ID number to be used on the required PCB waste manifests. Owners and operators of commercial storage and disposal

facilities, must submit to the Agency an annual report of discrepancies between the quantity and type of PCB waste designated on the manifest or shipping papers, and the quantity or type of PCB waste actually delivered to, and received by, their designated facilities. Commercial storers of PCB waste must submit financial assurance and closure plans for EPA approval of their facilities. Commercial storers must also keep records of burden associated with 3rd-party notifications. In addition, users, storers, and disposers of PCB waste must keep records of all their PCB activities, including copies of manifests and all annual records of the disposition of PCBs. The Agency uses the information to monitor the movement of PCBs and their ultimate disposal, and to ensure compliance with the regulations.

Burden Statement: The estimated average public reporting burden for this collection of information is .38 hour per respondent for reporting, and 7.4 hours per recordkeeper annually. This estimate includes the time to read instructions, gather existing information and complete the required reports.

Respondents: Handlers, users, storers and disposers of PCBs, and owners and operators of PCB disposal facilities.

Estimated No. of Respondents: 22,600.

Estimated No. of Responses Per Respondent: 1.

Estimated Total Annual Burden on Respondents: 175,648 hours.

Frequency of Collection: Annually and on occasion.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, (please refer to EPA ICR #1446.05 and OMB #2070-0112) to:

Abstract: Manufacturers who recondition used catalytic converters and who manufacture replacement catalytic converters must submit semi-annual reports to the EPA describing the reconditioned or manufactured catalysts. For each catalyst line, the Agency requires information concerning the catalysts' design, testing and warranty as well as the make, model and year of the vehicle(s) in which the catalyst may be installed. The EPA uses this information in enforcing its policies on the sale and use of aftermarket catalytic converters.

Burden Statement: The public reporting and recordkeeping burden for this collection of information is estimated to average 4 hours per respondent, including time for reviewing instructions, testing, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Respondents: manufacturers, reconditioners and installers of aftermarket catalytic converters.
